**DETAILED ACTION**

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Notice of Informal Examiner's Amendment***

"3" (page 15, line 3) changed to – 2 --; "2" (page 15, line 6) changed to – 3 --;  
"14" (page 15, line 12) changed to – 4 --; and "13" (page 15, line 19) deleted.

***Claim Objections***

2. Claims 63,65 and 66 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot refer or depend from more than one claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

***Drawings***

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: #21 as per page 18, line 10. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application **OR** the reference number could simply be deleted from the specification. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

4. Claims 54,57,58 and 61 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter

which applicant regards as the invention. "Said co-extruded" (claim 54, line 2) lacks antecedent. "Said" should be changed to – a --. Lines 1-3 of claim 57 is indefinite in that it recites the bristle and monofilament as if they were two different things, while claim 34 recites that the "bristle" is made by cutting an extruded monofilament to length. It is suggested that claim 57 be amended to read as "wherein a use end section of the bristle is conified..". Applicant should review the claims for any additional informalities.

***Allowable Subject Matter***

5. Claims 34-53,55,56,59,60,62 and 64 are allowed.
6. Claims 54,57,58 and 61 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited patents are each pertinent to brush bristles comprised of at least two different materials.
